

## **Friends of Cabin John Creek**

### **Overview**

1. Friends of Cabin John Creek (FoCJC) is a 501(c)(3) organization which promotes the health and welfare of the Cabin John Creek watershed region through volunteer management in conservation services, events, communication, and publications.

We educate watershed residents and visitors about the safe, responsible use of sensitive resources, enlist and train volunteers from all interests to stabilize, improve, monitor, or enhance historic and natural resources, encourage the enjoyment and improvement of recreation opportunities, and develop programs for education and interpretation.

2. We have 262 members, as of June 2016.
3. We have one part-time staff member supported by a Chesapeake Bay Trust 21-month grant, run in coordination with the Montgomery County, MD, Department of Environmental Protection. The grant supports a Stormwater Management Program that runs from June 2015 to April 2017.
